God made us to image him through our everyday work. Our cultural moment demands Christians embody this vision, engaging their vocations as integral to the mission of God and essential for the flourishing of their communities. The local church must shape and strengthen their people to live into this vision as fruitful disciples of Jesus in every corner of their lives.

*The MTF Learning Community equips pastors and other church leaders to do just this.*

**WHY**

- Highly relational, cohort-style, 6-month, 3-session learning environment
- Learning from thought leaders (national & local)
- Congregational assessment on various dimensions
- Field experience and practitioner engagement
- Customized *Vocation Integration Plan*
- Ongoing coaching throughout process

**WHO**

Churches in the Front Range from various sizes, affiliations, and denominations are invited to participate. Each church sends 3-4 participants, 1-2 of which must be marketplace leaders, and not on staff at the church. *(We strongly recommend that the Senior/Lead Pastor is part of the LC, but this is not required.)*
